Reasons for Allowance

Applicants' response to the last Office Action, filed January 10, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 9 and 14 are allowable over the prior art of record. Claims 10-13, 16 and 15 depend from claim 9 and 14 respectively, therefore, are allowed.

Independent claim 1 recites the limitations of : quantifying the texture of each of said test areas; and tabulating said quantifying of said texture as a plurality of different textures and a plurality of different ranges representative of the percentage of the respective said texture for the respective said test area for each of said different textures. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Independent claim 1 recites the limitations of : testing the homogeneity of the texture of each of said test areas on aid image; and quantifying the texture of each of said test areas using, at least in part, a non-binary homogeneity measure. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of US 6445935 to Qian discloses a similar sytem. However, Applicant's declaration under 37 CFR 131 established the filing date of the

Art Unit: 2623

application that is prior the filing date of the cited reference US 6445935. Thus, the rejection under 35USC 102 is effectively overcome.

In view of the amended claims and the Applicant's arguments, the rejections to claims 14-15 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
